PROFESSIONAL SUMMARY

Frontend Developer with 3 years of experience in **Angular, TypeScript, and enterprise application development**, with strong expertise in **REST API integration, debugging, and system optimization**. Proven experience delivering scalable enterprise applications at Wipro for global clients including Microsoft. Recently built and deployed a **production-grade Angular 21 analytics dashboard**, showcasing modern architecture using **Signals, real-time data handling, and performance optimization**.

CORE SKILLS

Frontend: Angular (v10–21), AngularJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5
Backend Exposure: Node.js, Express JS, REST APIs, API Integration, JWT Authentication (basic)
Concepts: Component-Based Architecture, SPA Development, Angular Signals, Async Data Handling
UI/UX & Design: Responsive Design, UI Prototyping (Figma - basic), Accessibility (WCAG), Usability Testing, Human-Computer Interaction (HCI)
Libraries: Chart.js, Bootstrap Icons
Tools: Git, GitHub, VS Code, Chrome DevTools, Postman, Azure Boards
Practices: Debugging, Performance Optimization, Agile/Scrum, SDLC, Lighthouse Optimization

PROJECTS

Sudarshan Analytics Dashboard (Angular 21)

Live: https://sudarshandashboard.vercel.app/dashboard
API: https://sudarshan-warroom-api.onrender.com/
Code: https://github.com/RishaanVats/Sudarshan

- Developed a **Single Page Application (SPA)** using **Angular 21, TypeScript, and Bootstrap 5.3**
- Integrated **REST APIs** to fetch and render real-time data across dashboard modules
- Implemented **Angular Signals and computed properties** for efficient state management
- Built interactive and responsive **KPI cards, tables, and Chart.js visualizations** for analytics insights
- Applied **data transformation using JavaScript (.reduce)** for aggregation and reporting
- Processed and visualized **multi-source data across 1,000+ records** using dynamic charts and tables
- Designed **modular, reusable components** aligned with scalable enterprise architecture
- Customized UI using **CSS variables and Bootstrap Icons**
- Achieved **Lighthouse scores: 98 (Performance), 98 (Accessibility), 100 (Best Practices & SEO)**
- Deployed using **Vercel (frontend)** and **Render (backend API)**

PROFESSIONAL EXPERIENCE

Sr. Software Engineer (Frontend / MEAN Stack)
Wipro Ltd | Hyderabad
Jul 2019 – Apr 2022

- Developed and integrated **Angular-based frontend components** with backend services (REST / Monolithic)
- Built reusable component libraries to improve development efficiency
- Worked on enterprise applications for **Microsoft (client),** delivering scalable and high-performance UI solutions

- Acted as **Single Point of Contact (SPOC)** for client communication, requirement gathering, and delivery coordination
- Collaborated with backend teams to ensure **seamless system integration and data consistency**
- **Troubleshot and resolved production issues, improving application reliability** and performance
- Supported deployment cycles, performing defect fixing, debugging, and validation
- Delivered onboarding feature enabling **6,000+ user activations**, improving adoption metrics
- Ensured adherence to **SDLC processes, documentation, and reporting standards**

ENGINEERING & DELIVERY ALIGNMENT

- Experience working with **API-driven and microservices-based systems (frontend integration)**
- Strong focus on **debugging, defect resolution, and performance tuning**
- Familiar with **deployment workflows, client requirements analysis, and system enhancements**
- Committed to delivering **scalable, maintainable, and efficient software solutions**

RECENT DEVELOPMENT WORK

- Built and deployed modern Angular applications demonstrating **current hands-on expertise**
- Strengthened knowledge of **Signals, component architecture, and real-time data systems**
- Applied UI/UX principles and performance optimization techniques
- Actively maintaining GitHub projects and a live developer portfolio
